Tri Pod for Start Systems

[Call for Pricing](#)

Tri Pod

Use the Tri Pod on the Infinity or Championship Start systems to raise the units up so all can see and hear the start.

The mounting bracket is screwed to the starter unit with screws included. This allows quick removal and install on to the tri pod bracket with the use of thumbscrews.

The tri pod is given surefooting with a rubber foot on each leg. The locking pin has three locking heights.

Brand: Colorado

Locking Heights: 1220 mm, 1575 mm and 1880 mm
