ANTI 650 STARTING BLOCK - MOVABLE TRACK START

[Call for Pricing](#)

Starting Platform - Anti 650 MTS (New)

The Anti 650 MTS (Movable Track Start) Block is the newest block for competitive starts. Fibreglass construction with a movable Trackstart. Access port at the rear allowing access to the mounting bolts. Fitted with a powder coated stainless steel backstroke bar. Supplied with SafeStart handles, Dynaset anchors & earthing cable.

Information

Which one is right for me The starting platform must physically fit the coping / concourse. There is the coping height, coping width and water depth issues to address. Regulatory guidelines for competition and recreational swimming may also need to be observed. We can help choose the platform right for you. We need coping width, coping height from concourse, coping height from water level and water depth before we can recommend a platform that will suit your requirements.

Delivery Time - This item is subject to availability.
